**NEW BROCHURE HIGHLIGHTS LCD SERIES BOILER PERFORMANCE
AND INSTALLATION FEATURES**

WESTFIELD, Mass., August 2004 -- RBI has produced a new, six-page brochure featuring the LCD Dominator Series of sealed combustion boilers and water heaters. The six-page, full color publication features photos detailing the product's performance features, installation flexibility and easy-to-service features including slide-out heat exchangers.

The brochure features color illustrations detailing various venting options that add to the LCD's installation flexibility. The LCD Series with optional stainless steel jacket for indoor and outdoor applications is also shown. Comprehensive specification charts and dimensional drawings are provided for accurate specifying and size selection of models ranging from 225 -- 2300 MBH.

RBI, a Mestek Company, manufactures a full line of finned copper tube hot water heaters and boilers. For additional information or a free copy of this brochure contact RBI at **(413) 568-9571** or visit **www.rbiwaterheaters.com**.
